

GPS Tracking Device

Compact size for on the go! Real-time tracking! Take anywhere at any time! Small, but with exceptional performance and battery life. Our new GPS tracker –

The Ultra Mini is an exceptional, versatile, and extraordinary covert tracking device.

Internet & Wi-Fi Connectivity

Its super-fast, web-based, and Wi-Fi connectivity allows you access from anywhere on any device. Download the App on your mobile device for quick and easy access.

Install on any vehicle in just seconds or place on your kids' wrist like a watch. Perfect for tracking vehicles, people, and objects, including luggage.

The Ultra Mini's outstanding features allow you to use Google Maps, Google Earth, phone, and email alerts to **know**:

- Where they are
- Where they are heading
- How fast they are going
- Where they have been
- Their next stop
- How long they spent somewhere
- Vehicle status
- And much, much more!

Battery Saving Mode

Waterproof and extremely robust, the **Ultra Mini** comes with a durable rubber magnetic case and automatically switches off when not in motion, waking at set periods to report on its current location and log all positions. This battery saving mode is a remarkable feature for such a tiny device.

Charging the **Ultra Mini** is simple and straightforward. Place it on its own mat, and it will charge automatically. No need for buttons or switches. **Simplicity at its best!**

Summary

A unique and innovative product, our new **Ultra Mini is a best seller on Amazon and eBay**. With its high functioning, attractive, and effective features, 3-week battery life, custom reports, and tracking logs, very few tracking devices can outperform the new **Ultra Mini's** superior performance, size, and quality.
